## How to use Macro software

First, Install software. Second, open the software, enter the below interface,

You can choose any of profiles, profile 1, profile 2 or profile 3. They are for 3 different games. Under any profile, Click on Macro Editor, then the below interface will show up

Then, right click on Macro list area, choose new macro, and enter macro name you want, then Click ok,

Then click start record , type into the keys you want them to be replaced, and Click on "stop record" and "save"

# DRAGON X V I A R X FULL RGB WIRED MECHANICAL KEYBOARD

After that, Click on any key in the keyboard in the software, the window will pop up, Click on Macro, choose the name in the Macro list, and Click OK. And then Click "Apply", then it works.

If you want to reset the Macro, you could click on the Macro key in Keyboard-Image, then the window will pop up, then click on "reset" and OK.

You can adjust the brightness, Speed or color you want, and Click OK to save.

If you want to cancel macro, please click "restore" button, it will be factory setting again.
